► MAIN TOURISTIC ATTRACTIONS

Burgwallinsel:

UNESCO protected gem in Lake Teterow

An insider tip for nature lovers and those interested in history is the Castle Wall Island in Lake Teterow. Slavic settlers discovered the island at the end of the 9th century and founded further settlements on the opposite shores of the lake from here.

On the castle wall island, the inhabitants built a permanently inhabited refuge castle, the remains of which can still be seen today.

The gem in Lake Teterow can be reached by ferry or with the barge Regulus.

A restaurant with a large lakeside terrace invites you to linger.

Bergring Teterow:

The Teterower Bergring is the largest natural grass track for motorcycling in Europe.

The Bergring was created at the end of the 1920s by Teterow citizens in the Heidbergen near the city.

As early as the 1920s, motorcycle races took place in Teterow. At that time, there was no real race track for this.

One of the largest motorsport events in northern Germany takes place annually on the Bergring. Every year at Pentecost, the mountain ring race takes place on Sunday with many spectators.

Centrum Nauki Kopernik:

The Copernicus Science Centre is one of the first institutions of its type in Poland. It includes hundreds of interactive exhibits where children, young people and adults can carry out experiments demonstrating how the world around us works. The priority is on understanding the essence of phenomena, rather than on telling the story of scientific progress.
