► **EXPLORE YOUR DESTINATION**

► **MAIN TOURISTIC ATTRACTIONS**

Pałac Kultury i Nauki:

The first thing I noticed about the building was that it looked like a giant pencil with a tall and pointed top. The Palace of Culture & Science is the highest building in Warsaw – it is 231m high and has 62 floors. Accompanied by 360° viewing terrace and observation deck – this is the most visited tourist attraction in Warsaw. The Palace of Culture & Science in Warsaw was designed by Lew Rudniew.

Further info /

- **Website:** <https://pkin.pl/>
- **GPS Location:** 52.2319, 21.0060
- **Car parking:** One leaving toward Marszałkowska Street (next to the historic pedestal for open-air speeches) and five towards Emilii Plater Street (two next to the Museum of Technology near Jerozolimskie Street; one next to the Congress Hall, and two near the swimming pool by Świętokrzyska Street).

Łazienki Królewskie:

Łazienki Królewskie is the place of numerous cultural, scientific and artistic events, and is one of the favourite places for Varsovians to spend a Sunday afternoon.

- **GPS Location:** 52.2152, 21.0345

Centrum Nauki Kopernik:

The Copernicus Science Centre is one of the first institutions of its type in Poland. It includes hundreds of interactive exhibits where children, young people and adults can carry out experiments demonstrating how the world around us works. The priority is on understanding the essence of phenomena, rather than on telling the story of scientific progress.
